

**INFOhio**  
**Distance Learning & Course Catalog Registration System**  
Focus Group Meeting – July 20, 2023

**Focus Group Members Present:**

Michele Carlisle  
Paul Hieronymus  
Willamarie Jackson  
John Mitchell  
Kathy Mohr  
David Stein  
Jacinda Yonker

**Project Updates –**

**Project Plan Status and Update –**

Project Activities:

Wireframes Completed	g2o has completed the wireframes for the project. These will be the basis for the system pages as the design and development move forward.
g2o Development Environment	g2o's staff have established the development environment to support GoLearn. This environment is based on Management Council environment. This will allow for the transition from g2o to the Management Council Data Center at the end of the project.
Design Interviews	School Counselors, ESC Staff, and ITC SIS Support Staff participated in the Design Interviews. Nine people participated in the Design Interviews. I was able to observe some of the sessions.
Synthesis of Design Interviews	g2o is now reviewing and summarizing the interview results to use in the design and development efforts.
Development Initiated	g2o Developers have begun work on the Login page and the home page for the system.
Sprint 0 Complete	g2o utilizes the Agile Development methodology. This approach allows for the delivery of small pieces of working software quickly. Last week I participated in the Show and Tell for Sprint 0.

**System Design Screenshots –** A review of the current version of system design screenshots.

**Project Communications –** the following document project communications over the past several weeks.

**Ohio Implementation Partner Meeting –** Erica and I presented GoLearn at the monthly Ohio Implementation Partner Meeting.

**Office of Learning and Instructional Strategies –** Erica and I also presented GoLearn to this ODE sponsored group.

**Discussions with Potential Pilot Districts –** I have had one-on-one discussions with schools that may be interested in participating as a pilot.

**Distance Learning & Course Catalog Registration System**  
Focus Group Meeting – July 20, 2023

**Other Discussion Items?**

During the review of the system design there was a discussion of the need to load student data into the Host School SIS. There are EMIS and open enrollment considerations we will need to address.

While discussing upcoming conferences I shared that OSBA had not accepted our proposal to present. There was a suggestion that we consider a Webinar following the conferences as an alternative.

Focus Group members offered to co-present at conferences.

**Next Meeting August 17<sup>th</sup>, 2023 at 9:00 AM**
