

# ODE EMIS Conference Call Summary

August 15, 2016

Notes provided by Elizabeth Davis (SWOCA), Mary Myers (LACA), Janice Ditto (MCOECN/SSST), and Andrew Tompkins (MCOECN)

## Items from David Ehle

- 1) David noted his appreciation for attendance at the in-person meeting last week.
- 2) Appeals Collections
  - a) There were a number of districts with appeals open. ODE is opening collection requests for them as their appeals are approved.
  - b) The window to submit updated data after the appeal is approved closes 3pm on Wednesday 8/17/2016 – NO EXTENSIONS.
  - c) ODE is creating a spreadsheet listing approved appeals as of 8/15. Not complete – some districts are still pending approval – but the majority are listed. Bill or Roger will send later today (8/15/2016).
- 3) Secure Data Center (SDC)
  - a) SDC is open today.
  - b) ODE believes all business rules have been applied, still working to correct a few bugs.
  - c) Working to finish up FY15 Graduate appeals information.
- 4) Relating to items #1 and #2 above:
  - a) There were a number of appeals collections open last week. Any appeals data submitted as of 5pm last Friday was included in the weekend processing and available in the SDC.
  - b) Districts can review data relating to their appeal to see if the issue has been resolved, and resubmit data by 3pm Wednesday if necessary.
- 5) Local Report Card
  - a) One collection yet to open in this year's report card: summer 3<sup>rd</sup> grade reading administration.
  - b) This collection will be open Tuesday or Wednesday, before the LRC closes
  - c) Test results from Vendor should also be available, districts should be aware to look for these if they administered a summer assessment.
  - d) This collection will close on the 8/31/2016.
  - e) Strongly encourage districts to download summer administration scores – if they gave the assessment they should report it as soon as possible before window closes in two weeks.
  - f) Be advised – 3<sup>rd</sup> Grade Reading summer assessment results are only used for calculating the promotion rate, but they don't apply for any other report card measures.
  - g) Questions
    - i) Will this be an FY17 collection?  
(1) yes, this is an FY17 collection
  - h) Will there be a missing report?
    - i) No, it happens so quickly there will not be a missing report

- ii) David noted the summer reading assessment is not a required administration; it is optional
  - iii) Whoever is on the vendor file will need to be reported – typically a small number of students in each district (assuming the district participates in the summer reading assessment)
- 6) CTE Reports
- a) Good data pull on CTE on Friday, will be updating CTE reports today.
  - b) Districts have two weeks – this week and next week – to clean up remaining issues
  - c) If not fixed by 8/26/16 they can appeal, which will be sometime in October.
- 7) FY17 Collections
- a) Scheduled to open this week:
    - i) Calendar
    - ii) Student Cross Reference (SCR)
    - iii) SOES contact/address

#### Questions from participants

- 8) Is there an update on KRA missing?
- a) We have an updated collection, hope to have posted today.
- 9) On CTE reports – will there be a newsflash?
- a) Yes, ODE can mention it in the newsflash, but probably not until Tuesday because the update processing takes two stages. Detail will show first, summary comes later and possibly not until late afternoon Tuesday until the summary rows are completed. Any mention in newsflash will take place after the summary rows are updated.
- 10) On retention reporting, all new students are erroring out – is this normal?
- a) Yes, this is normal. You only report retention on students enrolled the previous year.
  - b) If a student moved into the district that was retained at a previous school, the previous school reports the information, not the new school.
  - c) If they were not in the 3<sup>rd</sup> grade cohort the prior year, won't be included in the report card.

#### Next scheduled call

- 11) Next schedule is August 29<sup>th</sup>.
